Soft Skills:

Analytical | Problem-Solving | Leader |
Adaptable | Quick learner

Technical Skills:

Programming Languages:

JavaScript, Python, HTML,
CSS, MySQL

Frameworks:

React, Bootstrap, Flask

Key Strengths:

- Software Development Life Cycle (SDLC)
- Data structures and algorithms
- Debugging and Troubleshooting
- Database Management
- Web Development
- System Scalability
- Software Installation and
- Configuration

Personal Details:

Date of Birth: 21 Oct 2002

Languages Known: Kannada
English
Hindi

Address: BTM 2nd Stage, Bangalore
Karnataka, 560078

Profile Summary:

- Proficient in data structures, algorithms, and object-oriented programming (OOPs) with Flask in Python.
- Strong skills in querying, joins, Data Definition Language (DDL), and Data Manipulation Language (DML) in MySQL.
- Experienced in HTML, CSS, and Bootstrap.
- Familiar with functions, event handling, and JSON in JavaScript.
- Proficient in Visual Studio Code, Git & GitHub, MySQL Workbench, and XAMPP.
- Engaged in solving coding challenges and optimizing existing codebases.
- Proficient in diagnosing PCs and laptops.
- Good understanding of computer hardware, software, and operating systems.
- Experienced in installing, configuring, and updating software applications.
- Willingness to learn and adapt to new technologies and processes.

Academic Details:

- Bachelor of Computer Application's** 2021-2023
BLDEA's Association's, JAMAKHANDI
CGPA: **7.02**
- Science (PCMB)** 2018-2020
Government PU College, MAJALATTI
- SSLC** 2017-2018
JET High School, UGAR BK

Academic Projects:

Dairy Management System

Tools: PHP, HTML, CSS, JavaScript, Bootstrap

Developed an online management system to automate and enhance communication between rural residents and dairy management.

Responsibilities:

- Led the Front-End Development team in creating an online management system to automate communication between rural residents and dairy management.
- Utilized VsCode for efficient coding, PHP for server-side scripting, and employed HTML, CSS, JavaScript, Bootstrap for the user interface.
- Collaborated with a team of 3 members, ensuring timely project delivery.

Certification:

Completed Python Full-Stack Development in **ScholarLogic**, powered by **ROOMAN Technologies**. Acquired hands-on experience in developing scalable applications.

Hobbies:

- Coding and technology exploration
- Playing and watching cricket
- Listening to music
